Maxima Tepee™

The Maxima Tepee™ is a stunning modular structure that is available from 3 metres up to a massive 15 metres. Its hardwearing and aesthetically pleasing design offers superior shelter as a standalone or with many multiple unit possibilities. Manufactured using the latest technology, these colourful units comprise of galvanised and PPC steel and boast integral gutter systems. The waterproof fabric is UV resistant and fire retardant.

- Solid steel framework
- Framework finished in Dura-coat™ finish
- Clever integral gutter system
- Wide range of sizes
- Contrasting frame and fabric options
- Minimal uprights
- Versatile and modern functional design
- Enhance the look and increase coverage with multiple modules

Appearance

Steelwork on the Maxima Tepee™ is galvanised only or finished in Dura-coat colour finish to any RAL colour.

High strength, varnished PVC coated polyester fabric, manufactured using the latest technology, is available in 2 weights and 15 stunning colour choices.

Post pads can be any colour, often contrasting with the structure.

Services

A & S Landscape recommend early consultation to consider all aspects of the installation of our Maxima Tepee™. We provide free quotations, technical information and drawing files (at design stage) to allow effortless incorporation into Architects' drawings. Our service to you includes: - comprehensive site surveys, CAD Drawings, and project management. Early technical involvement often improves design, aesthetics and cost.

BESPOKE PRODUCTS
Our ability to extensively customise our products ensures that we can meet any specialist requirements that you may have. Our flexible modular system often allows this to be done very economically whilst retaining all of our superior performance characteristics.
