A & S LANDSCAPE DURA-COAT™ COLOURS

- **MATCHING THE BUILDING FAÇADE...?**
- **COMPLEMENTING THE CORPORATE COLOURS**
- **OR SIMPLY BLENDING IN...?**

A & S Landscape go the extra mile, whilst many manufacturers restrict you or indeed charge extra, our DURA-COAT™ finish is available in any RAL colour at no extra charge.

Our DURA-COAT™ finish is the toughest in the business - after a multistage pre-treatment process all steelwork is protected with the application of a zinc coating giving a tough protective finish for maximum longevity, after this the steel is coated with an electrostatically charged powered resin (in your chosen colour) before being heated and cured in an oven at 200C. This gives an amazingly durable as well as an attractive finish.

Our aluminum guttering is then also coated in the same colour finish giving you a complete structure in the same colour – don't compromise your canopy with black, white or brown plastic guttering!

Why not give your canopy added zest with post pads in primary colours – please ask for an illustration.
