

RECENT PROJECTS

LOUGHBOROUGH PRIMARY SCHOOL

Specified by leading architects this canopy covers a massive 60sq mtrs sq providing excellent covered play space for the early years pupils. Post pads in primary colours complete the picture!

WYRE ADULT RESPITE CENTRE

Situated in breezy Fleetwood the entrance lobby of this newly refurbished respite centre caught the gust every time the automated doors opened. The Council looked to A&S Landscape for the solution. This Motiva Duo canopy complete with side panel provides a dry access point for staff and visitors to the centre as well as a barrier to stop the wind. Perfect!

BILSTON PRIMARY SCHOOL

Door and fence locations married with the desire for a cantilever canopy presented a challenge for us on this canopy for Wolverhampton Council, in addition the ex mining area necessitates every structure to be bolted to a concrete raft foundation! Our designers were glad to come up with a solution – the double cantilever with spread foot-plates for securing this excellent play area shelter.

CYCLQ™
cycle & buggy storage

ST PETERS SCHOOL - WIGAN

Working with the architect A&S Landscape supplied and installed two Motiva mono canopies at the school during the Easter holiday break, one of the canopies was located in a courtyard deep inside the school proving once again the benefits of our modular construction. The canopies were finished in a specific RAL colour to match existing structures – another extra we don't charge for!

ST MARY'S SCHOOL – BRIDGNORTH

Staff at St Mary's school could see the need for external shade for both outdoor learning and play times, a triple set of 'Maxima' Sails fitted the bill perfectly proving a good area of shade (18M X 6M) and finished in blue and white, a very smart addition to the school grounds.

ASPULL PRE-SCHOOL

Perforated roller shutter doors complete this narrow canopy especially designed for this pre-school nursery providing not only additional building security but also a safe external storage area. The perforated option even means that the doors can be left down and the area accessible and pleasant on rainy days!
