

Maxima Parasol™

Sometimes referred to as pub umbrellas, jumbrellas or giant umbrellas, these UK manufactured parasols should not be mistaken for our Umbrella™ or StarSail™ products, but nor should you compare these with the many European patio parasols on the market. This new generation of shade structure delivers real performance thanks to the structural calculations which consider wind loading in any direction and situation. A cost-effective commercial quality product designed to cover outdoor dining areas and suitable for applications where a collapsible or removable shelter is required. The solution for customers who don't want to spend time, money and effort managing and maintaining parasols.

- ✓ Economical design
- ✓ Ground fix and baseplate option
- ✓ Wide range of sizes
- ✓ Heating and lighting options

Appearance

A range of colours are available. Parasols are suitable for branding. Steel colour is stainless steel.

Services

A&S Landscape recommends early consultation to consider all aspects of the proposed installation. We provide free quotations and technical information at the design stage. Early technical involvement can often improve design and aesthetics and reduce cost.

BESPOKE PRODUCTS

Parasols are a standard product not suitable for bespoke applications.
